

PARTNERSHIP

Joining the Aidmatrix Network means you have a wealth of resources at your disposal. A community of relief agencies, governments and corporate partners offers collective knowledge of best practices and practical solutions — meaning you are never in it alone.

TECHNICAL SUPPORT

Whether it be a training question or help with activating during a disaster — we are here to help. Our mission is to empower your team to maximize the disaster relief available to those in need.

TURN-KEY SOLUTIONS

We offer this service as a hosted application, so there is no hardware to maintain and no IT staff to hire.

For more information on any of our products or services please visit us on the Web at:
www.aidmatrix.org

The Aidmatrix Network[®] for Humanitarian Relief **Volunteer Management**

The Aidmatrix Network[®] for Humanitarian Relief offers a robust set of Volunteer Management technologies. The solution includes a suite of modules that work together or independently and flex to work with your existing systems helping empower your efforts to procure, manage and deliver humanitarian relief.

Let the technology help manage the paperwork so you can focus on the relief work.

Volunteer Registration

Enable potential volunteers to create a user account and register to volunteer on your web portal so you can build a database of volunteers for immediate and ongoing engagements. Captures contact information, key skills, level of experience, languages, certifications, dates available, distance willing to travel and more. Capturing this data electronically saves time and money while enabling you to make an informed evaluation of each candidate's qualifications as they relate to your existing and future volunteering opportunities.

Volunteer Needs Management

Collect, organize, and display needs for volunteers and specific skills. This enables potential volunteers to see what you are looking for and volunteer in those areas that match their skills.

Integrates automatically with In-Kind and Transportation Donations Management Modules.

Volunteer Referral

Provides potential volunteers with a list of your partnering NGOs from which they can select. Links those volunteers to your partners' volunteer registration pages. Helps your NGO partner identify additional volunteer resources in addition to their own recruiting efforts.

Volunteer Redirection

If you have an existing in-house or third party volunteer management solution you can enable application integration into your web portal through this tool.

Volunteer Digital Hub

Use this internet-compatible, web-services framework to integrate into your existing internal ERP or Supply Chain systems to optimize workflow and effort. This really enables you to unpack the value of the data you have in the Aidmatrix Network.
